

SERVICES PROVIDED

- Quality Assurance/
Quality Control

PROJECT DESCRIPTION

Fort Hill Infrastructure Services was retained as a subconsultant to provide Quality Assurance/Quality Control services for a facilities project on Hanscom Air Force Base. The prime consultant is preparing plans and specifications for the repair of a fuel containment area and a pump house berm to be constructed under the American Recovery and Reinvestment Act (ARRA). Fort Hill reviewed Title 1A and Title 1b design drawings and prepared review memoranda for use by the prime consultant in advancing the design to appropriate design stages.
