

SERVICES PROVIDED

- Transportation Planning
- Traffic Engineering
- Parking Systems
- Government Contracting

PROJECT DESCRIPTION

Fort Hill Infrastructure Services has been retained as a subconsultant to assist the MBTA in its efforts to account for the expenditure of the American Recovery and Reinvestment Act (ARRA) funds which have been committed to its transit system. As a member of the team, Fort Hill is responsible for assisting the MBTA with projects such as parking systems, bus operations, and accessibility improvements. Fort Hill's expertise in the area of government contracting has also played a significant role in this contract.
